📄 SUMMARY

I am a **frontend developer** with **five years** of experience, specializing in scalable and high-performance web applications. My expertise lies in **ReactJs** and **NextJs**, with growing proficiency in **VueJs**, supported by strong skills in **state management**, **UI/UX design systems**, and **SEO optimization**. I am passionate about continuous learning and actively explore emerging technologies to integrate them into real-world projects. Beyond technical skills, I thrive in cross-functional collaboration and effectively bridge communication between developers, designers, and stakeholders to deliver impactful solutions.
